COURSE 1 OF 4

AI Fundamentals

Understand AI before you use it.

Start with the basics: what AI is, how it learns from data and where it is used in everyday life. You also learn the main types of AI, tour the popular AI tools and discover how to use AI responsibly.

What You Will Learn

01 What is AI & How It Works
How machines learn from data and make decisions.

02 Types of AI (ML, DL, GenAI)
Machine learning, deep learning and generative AI, explained simply.

03 Real-World Applications
Where AI is used in business, health, education and daily life.

04 AI Tools Overview
A tour of popular AI tools and what each is best for.

05 Ethics & Responsible AI
Use AI safely, fairly and responsibly.

Benefits You Get

Strong foundation
Understand AI in plain language, with no technical background needed.

Confidence with AI tools
Stop fearing AI and start using it for study, work and income.

Spot opportunities
See where AI can save time or create income around you.

Use AI responsibly
Know the limits and risks, and use AI the right way.

HANDS-ON
Explore popular AI tools and watch AI answer your questions in real time.

AFTER THIS COURSE
You can explain how AI works, pick the right tool and use AI responsibly.

COURSE 2 OF 4

Prompt Engineering

Better prompts, better results.

The quality of every AI poster, video, caption or answer depends on the prompt. Learn a clear method to write prompts that give accurate, professional output in fewer attempts, across different AI tools.

What You Will Learn

01 What is a Prompt
How AI reads your instructions and why wording matters.

02 Prompt Writing Techniques
Be clear and specific; add context, style and format.

03 Advanced Prompt Patterns
Step-by-step, role-based and example-based prompting.

04 Prompting for Different AI Tools (ChatGPT, Gemini, etc.)
Adapt your prompts for text, image and video tools.

05 Real Use Cases & Practice
Practise with business, content and study examples.

Benefits You Get

Faster, better output
Get usable results in fewer attempts.

Works on every tool
Use the same skill on ChatGPT, Gemini and other AI tools.

Save time and money
Less trial and error means less wasted effort.

A skill clients value
Good prompting is the base of every AI service you can offer.

HANDS-ON
Turn a weak prompt into a strong one and compare the results across tools.

AFTER THIS COURSE
You can turn any idea into a precise prompt and get professional results from AI.

COURSE 3 OF 4

Generative AI

Create text, images, video and audio with AI.

Explore the generative AI tools that produce professional content in minutes. You will practise creating text, images, video and audio, and finish with real projects you can add to your portfolio.

What You Will Learn

01 What is Generative AI
How AI creates new text, images, video and audio.

02 Text, Image, Video & Audio Generation
Create each type of content step by step.

03 Tools: ChatGPT, DALL·E, Midjourney, Runway, etc.
Hands-on practice with the leading generative tools.

04 Content Creation & Automation
Turn ideas into posts, reels and automated workflows.

05 Real-World Projects
Build portfolio-ready work you can show to clients.

Benefits You Get

Professional content, faster
Create what once needed a full design team.

Portfolio-ready work
Every project becomes a sample you can show.

Creative freedom
Try ideas quickly and improve them with AI.

Service ready
Offer posters, videos and content to clients.

REAL-WORLD PROJECTS
Create AI posters, videos and content for your portfolio.

AFTER THIS COURSE
You can produce professional text, image, video and audio content using AI.

COURSE 4 OF 4

Meta Ads

Reach customers on Facebook and Instagram.

Learn to plan, launch and improve ads on Facebook and Instagram. From your first campaign to audience targeting, budgeting, AI-made creatives and tracking results, you practise every step.

What You Will Learn

01 Introduction to Meta Ads (Facebook & Instagram)
How ads work across Facebook and Instagram.

02 Campaign Creation (Step-by-Step)
Set up your first campaign from objective to launch.

03 Audience Targeting & Budgeting
Reach the right people and spend wisely.

04 Ad Creative & Copy with AI
Create ad images, videos and copy using AI.

05 Performance Tracking & Optimization
Read your results and improve your ads.

Benefits You Get

Run ads for any business
Use the skill for your own or a client's business.

A freelance service
Offer Meta Ads management as a service to clients.

Smarter budgets
Target the right audience and spend with confidence.

Faster creatives
Create ad images, videos and copy quickly with AI.

HANDS-ON
Plan a campaign: audience, budget, creative and tracking.

AFTER THIS COURSE
You can plan, launch and optimise a Meta Ads campaign using AI.

AFTER COURSE COMPLETION

What Our Students Say

The 45-day plan suited me perfectly. Thirty days of theory built my base, and the 15 practical days let me create real posters and a website using AI tools.

AR **Arun**

I joined the Live mode and loved learning with a trainer. The Meta Ads module showed me step by step how to plan a campaign and target the right audience.

PO **Poonam**

As a working professional I could upskill with classes from Monday to Friday. Prompt Engineering alone now saves me hours at my job every week.

JY **Jyoti**

As a college student, the Recorded option let me learn at my own pace. I am now building a portfolio so I can start freelancing.

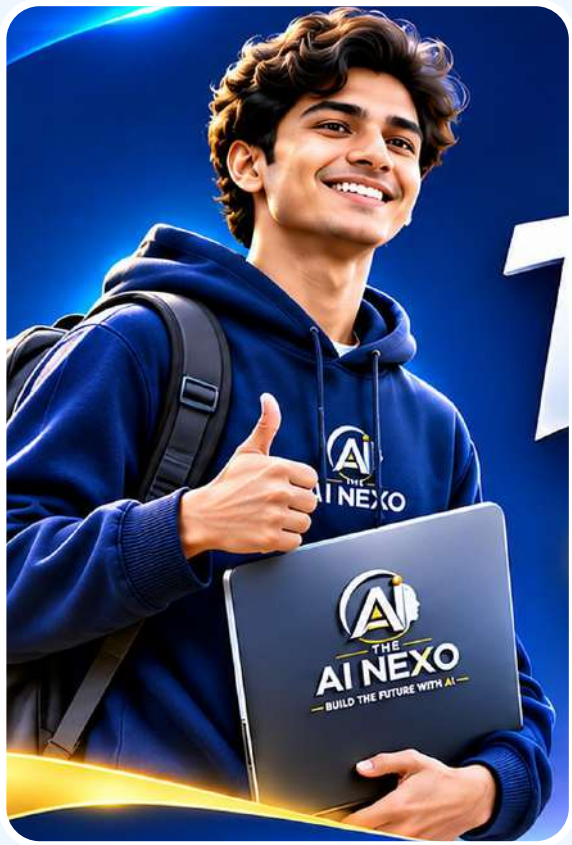

PR **Prince**

You can be next in our
Success Story!

THANK YOU

For Your Time & Interest
